

COVID-19 Is in Aerosols: Here Is What You Should **Avoid**

COVID-19 **A**void

Crowding

Indoors

low **V**entilation

Close
Proximity

long
Duration

Unmasked

Talking
singing

A C I V I C D U T Y
Yelling
breathing hard

What Does This Mean?

- “Aerosol” (aka as “airborne”) transmission is similar to droplet transmission (that we can see)
- But the bits of fluid are tiny
- And they can linger in the air for minutes to hours

Think of smoke to help your risk assessment & risk reduction strategies. Just imagine that others you encounter are all smoking: the goal is to breathe as little smoke as possible and avoid those "smoke filled areas."
