

NEW JERSEY TRAVEL ADVISORY

New Jersey strongly discourages all non-essential interstate travel at this time.

Travelers and residents returning from **any U.S. state or territory** beyond the immediate region (New York, Connecticut, Pennsylvania, and Delaware) should self-quarantine at their home, hotel, or other temporary lodging following [recommendations from the CDC](#):

- If travel is unavoidable, travelers should consider getting tested with a viral test (not an antibody test) 1-3 days before the trip and again 3-5 days after the trip.
- If travelers test positive, they should **self-isolate for at least 10 days and should postpone travel during that time.**
- If travelers test negative, they should **quarantine for a full 7 days after travel.**
- If testing is not available (or if the results are delayed), travelers should **quarantine for 10 days after travel.**

The advisory is no longer specific to certain states. Because of the rising number of case counts across all states, there is an increased risk of spread of COVID-19 upon return from any travel.
