Intro to App Lab Tutorial

PwC has partnered with code.org to bring new learning opportunities to youth. We are excited to bring this new afterschool enrichment program to St. Vincent Martyr School. More than 50% of today's jobs require some degree of technology skills. With the number expected to grow to 77% in the next decade. Start learning today with some of your favorite games!

Students will embark in an hour of code session in the SVMS computer lab through various tutorials providing them hands on experience creating apps. Examples include a wide variety of themes to engage almost any interest. Amirh Collis (parent of Alyssa Huie (4b) along with Jamie Carlson (PwC Senior Manager) will teach this class.

This enrichment program is limited to the first 20 students that register. Also, students need to commit to all four sessions due to the nature of the program.

### **Class Schedule : Spaces are Limited**

***For grades 3-5***

Day: March 12<sup>th</sup>, April 16<sup>th</sup>, May 14<sup>th</sup>, and June 4<sup>th</sup>

Time: 3:00 – 4:00 pm

Fee: None
