

5th Grade (soon to be 6th Grade) Math
Summer Assignments on IXL 2022

- C.9 - Estimate Products
- C 6 - Properties of Multiplication
- E.2 - Evaluate powers of ten
- E.3 Write powers of ten with exponents
- G.5 - place value in decimal numbers
- G.9 - round decimals
- G.14 - put decimal numbers in order
- G.16 - convert fractions to decimals
- G.17 - convert mixed numbers to decimals
- H.4 - add/subtract decimals
- I.10 - multiply a decimal by a multi digit number
- I.15 - multiply two decimals -Where does the point go?
- J.1 - divide by powers of ten
- J.6 - division with decimal quotients
- J 11 - Divide by decimals without adding zeros
- L. 8 - add fractions with unlike denominators
- L 11 - Subtract fractions with unlike denominators
- L.19 - Add mixed numbers with unlike denominators
- L 20 - Subtract mixed numbers with unlike denominators
- M.12 - multiply fractions and whole numbers II
- N.4 - divide whole numbers by unit fractions
- N.8 - Divide fractions by whole numbers
- N 10 - Divide two fractions
- AA 3 - Classify triangles
- DD.13 - volume of rectangular prisms with unit cubes
- DD 15 - Volumes of cubes and rectangular prisms
